Andres Holguin Restrepo

Dear Andres Holguin Restrepo (Andres),

I am pleased to offer you admission as a Mitacs Globalink Visiting Student in the Department of Mechanical Engineering at McMaster University from June 16, 2023 to October 14, 2023. You will be required to submit official documentation as proof that you are currently registered at your home institution. Your prospective supervisor is Dr. Gary Mitchell Bone.

Your student account will be assessed incidental fees in the approximate amount of \$54.48 per term for the duration of your studies at McMaster. Students are expected to pay the full term fee for any term that there is enrollment. Incidental fees for the 2022/23 academic year have not yet been determined and are subject to change. Incidental fees are non-refundable and subject to change in subsequent academic years.

Health Insurance is mandatory for all Visa Students including Visiting Students and is provided through the University Health Insurance Plan (UHIP) at a current cost of \$756.00 for one person for one full academic year (September 1 through to August 31st). Visiting Students are only charged for UHIP for the months that they are studying at McMaster (\$63/month). It is mandatory to apply for UHIP for dependents (spouse and/or children) if they are residing in Ontario, within 30 days of arrival.

It is our understanding that you are the recipient of a Mitacs Globalink Research Internship, that provides funding to defray the costs of transportation, housing, and living abroad for up to 12 weeks. During this internship, you will learn and apply 3D vision, kinematics, and control algorithms to a next generation collaborative robot, with the goal of designing, programming and experimentally testing robot software for collaborative tasks.

University vaccine, institutional, and program policies are subject to change, and acceptance of this offer is also acceptance of these policies.

Please inform us of your acceptance or rejection of this offer prior to Tuesday, April 4, 2023 by completing the online response form at [https://applygrad.mcmaster.ca/portal/applicant\\_status](https://applygrad.mcmaster.ca/portal/applicant_status). We hope that you will decide to accept our offer, and we look forward to welcoming you to Graduate Studies at McMaster University.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Nanci Cole".

Nanci Cole
